🔗 [www.piggyminibank.netlify.app](http://www.piggyminibank.netlify.app)

- Developed a prototype web application for a bank using JavaScript, HTML, and CSS. Implemented user management, transaction display, amount transfer, and loan request functionalities.

### CAREER GAP :(

#### Suffering from Critical Health Issue - Benign Recurrent Intrahepatic Cholestasis (BRIC)

2022 – 2024

During this period, I focused on health and recovery during this period. Underwent treatment and recovery for Benign Recurrent Intrahepatic Cholestasis (BRIC), a rare liver disorder characterized by recurrent episodes of cholestasis. Engaged in self-study and online courses during recovery time, particularly focusing on mastering web technologies such as React.
